

TASK SCDEDULER

TASK 1: MORNING NEWS

Setting the computer to automatically open your favorite news site every morning at a scheduled time.

1. Give task a clear name

The screenshot shows the 'Create Basic Task Wizard' window. The title bar reads 'Create Basic Task Wizard'. Below the title bar is a header area with a clock icon and the text 'Create a Basic Task'. The main area is divided into two panes. The left pane contains a list of steps: 'Create a Basic Task' (highlighted in blue), 'Trigger', 'Action', and 'Finish'. The right pane contains instructions: 'Use this wizard to quickly schedule a common task. For more advanced options or settings such as multiple task actions or triggers, use the Create Task command in the Actions pane.' Below the instructions, there are two input fields. The first is labeled 'Name:' and contains the text 'morningNews'. The second is labeled 'Description:' and contains the text 'Automatically opens the BBC News website every morning at 08:00 AM to save time and start the workday with the latest updates'. At the bottom right of the window are three buttons: '< Back', 'Next >' (highlighted with a blue border), and 'Cancel'.

Step	Description
Create a Basic Task	Use this wizard to quickly schedule a common task. For more advanced options or settings such as multiple task actions or triggers, use the Create Task command in the Actions pane.
Trigger	
Action	
Finish	

Name: morningNews

Description: Automatically opens the BBC News website every morning at 08:00 AM to save time and start the workday with the latest updates

< Back Next > Cancel

2. Choose the time you want the task to take place

Create Basic Task Wizard

 Task Trigger

Create a Basic Task

Trigger

Action

Finish

When do you want the task to start?

☒ Daily

☐ Weekly

☐ Monthly

☐ One time

☐ When the computer starts

☐ When I log on

☐ When a specific event is logged

< Back Next > Cancel

3. Choose the exact date and time for initial execution of the task

Create Basic Task Wizard

 Daily

Trigger

Daily

Action

Finish

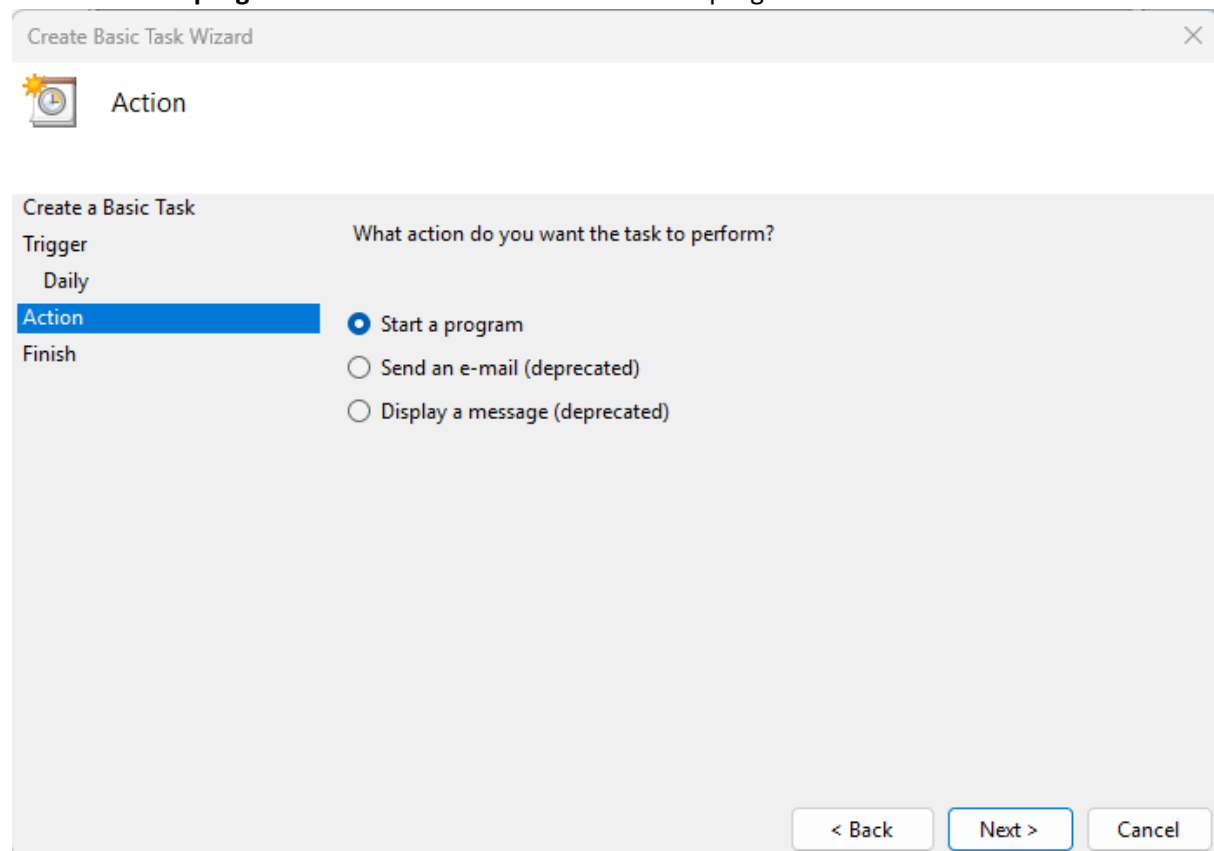

Start: 31/01/2026 8:00:00 am ☐ Synchronize across time zones

Recur every: 1 days

< Back Next > Cancel

4. ACTION

Choose **Start a program** because Chrome is an executable program

The screenshot shows the 'Create Basic Task Wizard' dialog box, specifically the 'Action' step. The title bar reads 'Create Basic Task Wizard' with a close button. Below the title bar is a navigation pane on the left with icons and labels for 'Trigger', 'Daily', 'Action' (highlighted in blue), and 'Finish'. The main area is titled 'What action do you want the task to perform?' and contains three radio button options: 'Start a program' (selected), 'Send an e-mail (deprecated)', and 'Display a message (deprecated)'. At the bottom right are three buttons: '< Back', 'Next >', and 'Cancel'.

Trigger

Daily

Action

Finish

What action do you want the task to perform?

☒ Start a program

☐ Send an e-mail (deprecated)

☐ Display a message (deprecated)

< Back Next > Cancel

Telling the computer exactly what **tool** to use and what **site** to work on.

The screenshot shows the 'Create Basic Task Wizard' window at the 'Start a Program' step. The left sidebar has 'Start a Program' selected. The main area contains the following fields:

- Program/script:** "C:\Program Files\Google\Chrome\Application\chrome.exe" with a 'Browse...' button.
- Add arguments (optional):** "https://www.wired.com"
- Start in (optional):** (empty field)

At the bottom are buttons for '< Back', 'Next >', and 'Cancel'.

5.END

The screenshot shows the 'Create Basic Task Wizard' window at the 'Summary' step. The left sidebar has 'Finish' selected. The main area displays a summary of the task configuration:

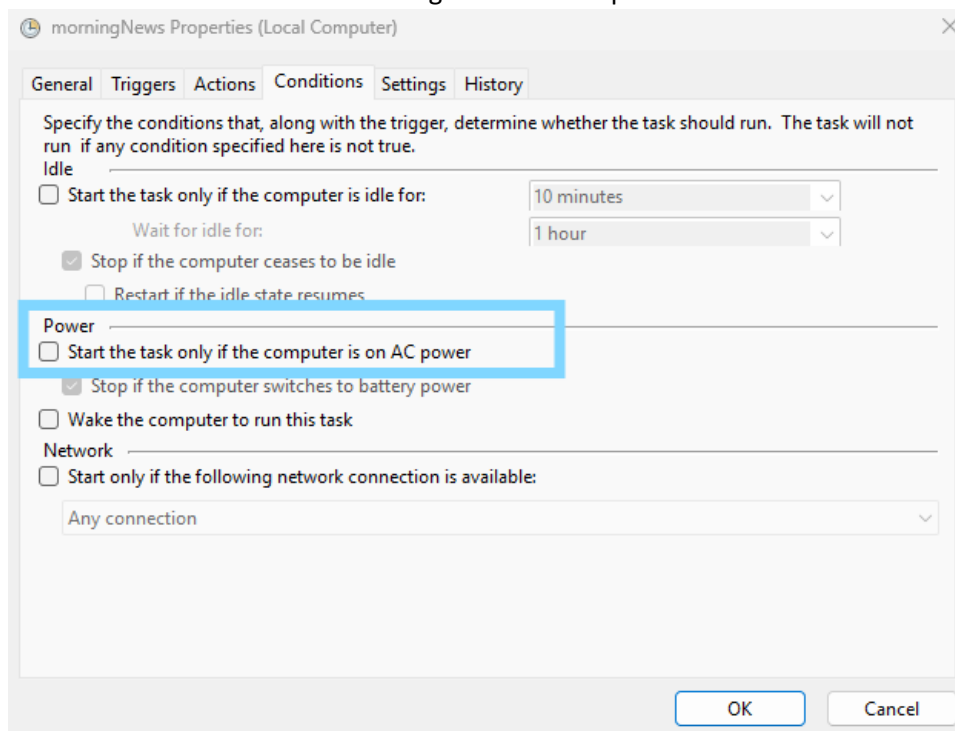

- Name:** morningNews
- Description:** Automatically opens the BBC News website every morning at 08:00 AM to save time and start the workday with the latest updates
- Trigger:** Daily; At 8:00 am every day
- Action:** Start a program; "C:\Program Files\Google\Chrome\Application\chrome.exe"

Below the summary, there is a checkbox labeled 'Open the Properties dialog for this task when I click Finish'. A note states: 'When you click Finish, the new task will be created and added to your Windows schedule.'

At the bottom are buttons for '< Back', 'Finish', and 'Cancel'.

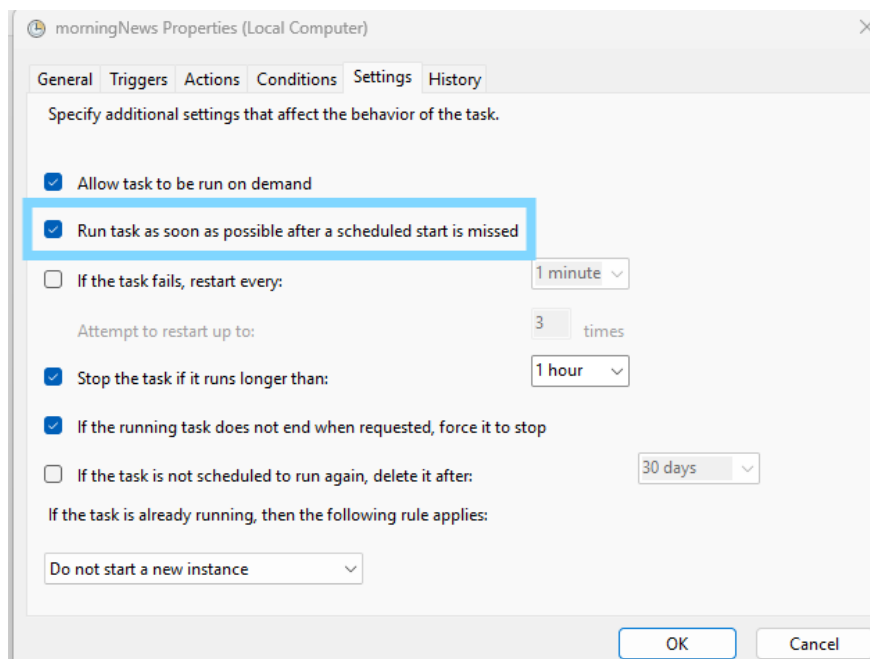

6. CONDITIONS

Uncheck so that the task will run regardless of the power source

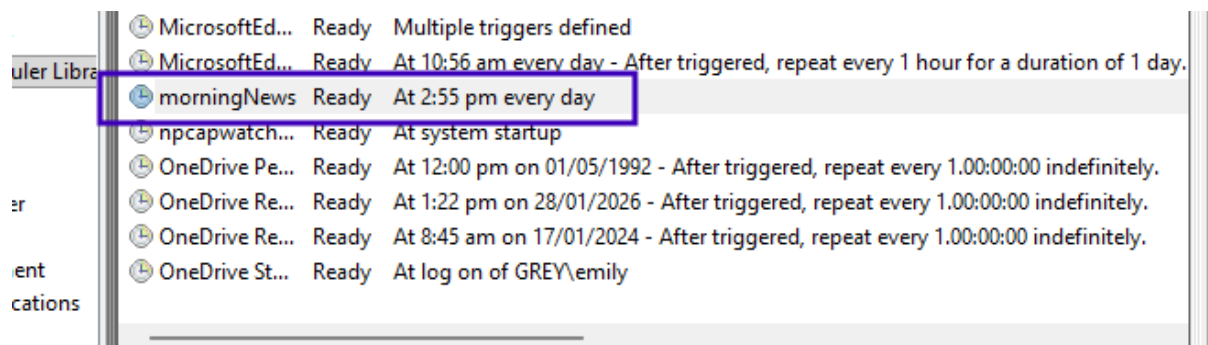

7. Optional

Ensuring that the news opens even if I start work late or my computer was off during the scheduled time.

8. STATUS

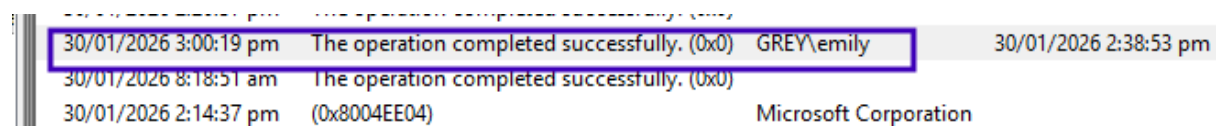

Ready status: The task is sitting in the background, waiting for its next scheduled time to arrive.

MicrosoftEd...	Ready	Multiple triggers defined
MicrosoftEd...	Ready	At 10:56 am every day - After triggered, repeat every 1 hour for a duration of 1 day.
morningNews	Ready	At 2:55 pm every day
npcapwatch...	Ready	At system startup
OneDrive Pe...	Ready	At 12:00 pm on 01/05/1992 - After triggered, repeat every 1.00:00:00 indefinitely.
OneDrive Re...	Ready	At 1:22 pm on 28/01/2026 - After triggered, repeat every 1.00:00:00 indefinitely.
OneDrive Re...	Ready	At 8:45 am on 17/01/2024 - After triggered, repeat every 1.00:00:00 indefinitely.
OneDrive St...	Ready	At log on of GREY\emily

9.PROVE

0x0 code means that a program finished its job perfectly on its own

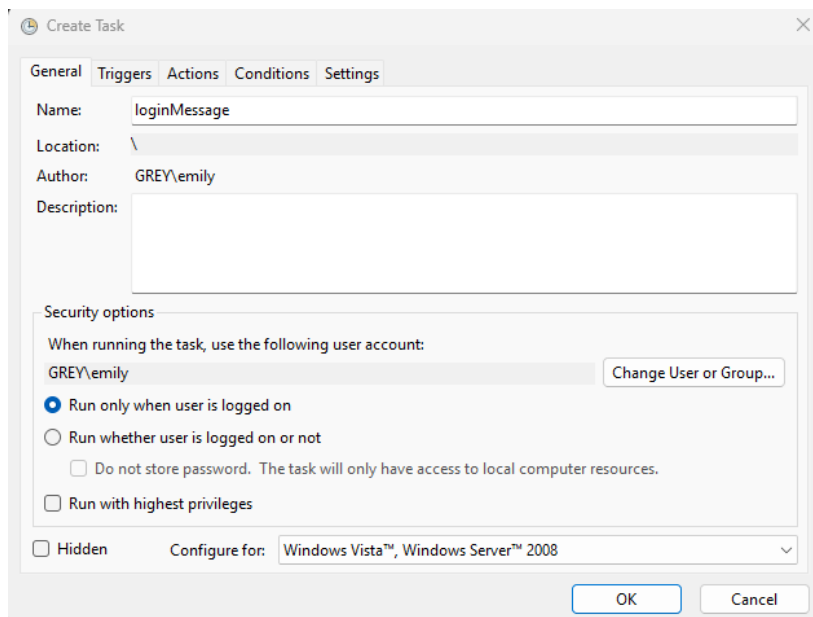

30/01/2026 3:00:19 pm	The operation completed successfully. (0x0)	GREY\emily	30/01/2026 2:38:53 pm
30/01/2026 8:18:51 am	The operation completed successfully. (0x0)		
30/01/2026 2:14:37 pm	(0x8004EE04)	Microsoft Corporation	

TASK 2: LOGIN MESSAGE

Automating a system pop-up to greet the user or display important reminders immediately after they log into the computer.

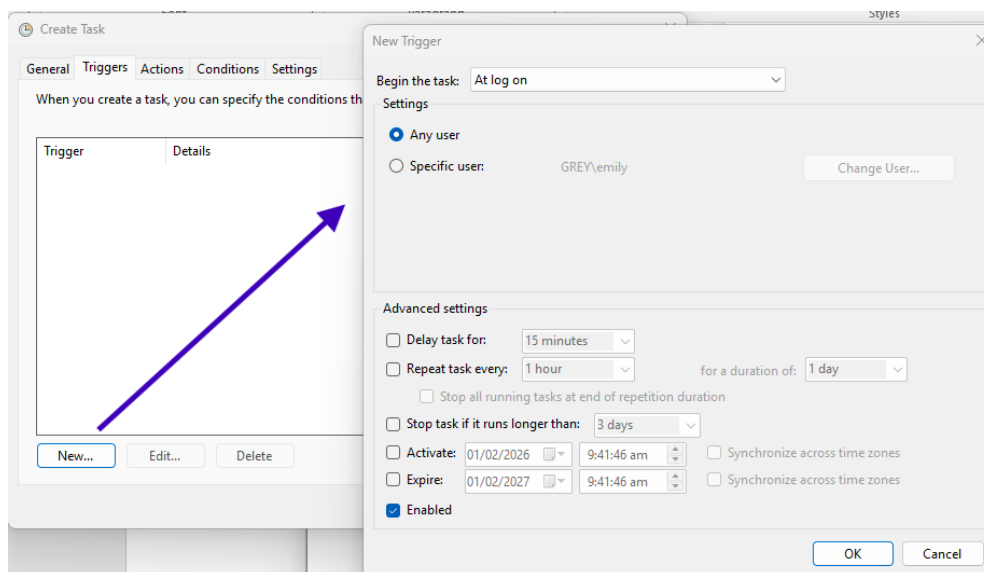

1. Create Task

Enter task name

The 'Create Task' dialog box is shown with the 'General' tab selected. The 'Name' field contains 'loginMessage'. The 'Location' field is empty. The 'Author' field contains 'GREY\emily'. The 'Description' field is empty. Under 'Security options', the 'When running the task, use the following user account:' section shows 'GREY\emily' with a 'Change User or Group...' button. Below this, the 'Run only when user is logged on' radio button is selected. There are also checkboxes for 'Run whether user is logged on or not', 'Do not store password. The task will only have access to local computer resources.', and 'Run with highest privileges'. At the bottom, there is a 'Hidden' checkbox and a 'Configure for:' dropdown menu set to 'Windows Vista™, Windows Server™ 2008'. 'OK' and 'Cancel' buttons are at the bottom right.

2. WHEN THE TASK SHOULD EXECUTE

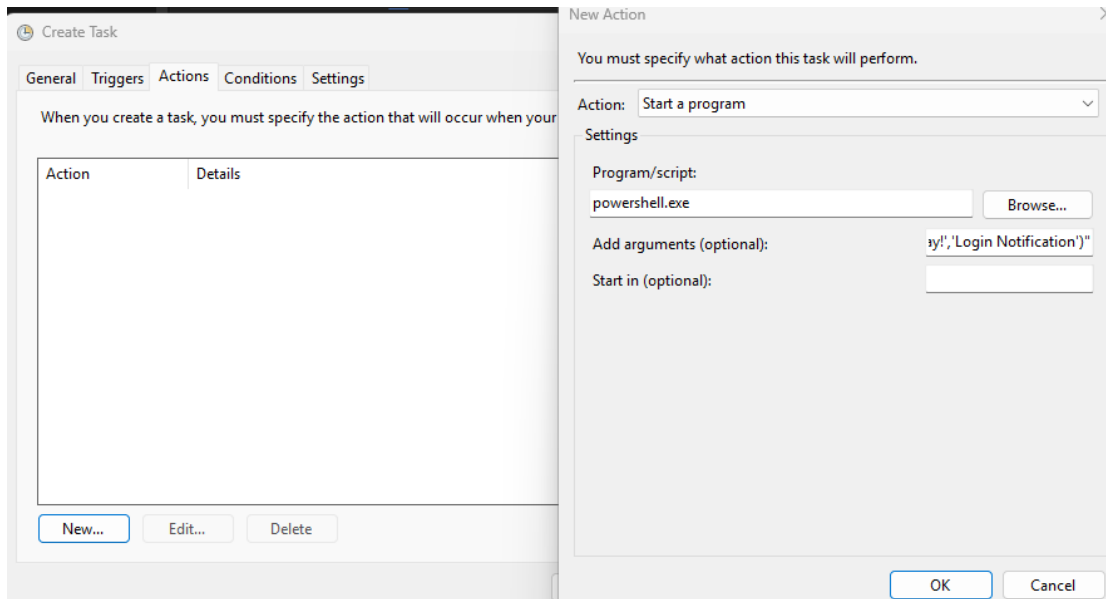

The 'Create Task' dialog box is shown with the 'Triggers' tab selected. A purple arrow points from the 'New...' button in the 'Triggers' tab to the 'New Trigger' dialog box. The 'New Trigger' dialog box is open, showing 'Begin the task:' set to 'At log on'. Under 'Settings', the 'Any user' radio button is selected. Below this, there are checkboxes for 'Delay task for:', 'Repeat task every:', and 'Stop task if it runs longer than:'. The 'Repeat task every:' checkbox is checked, with a value of '1 hour' and a duration of '1 day'. The 'Stop task if it runs longer than:' checkbox is checked, with a value of '3 days'. The 'Activate:' and 'Expire:' checkboxes are unchecked. The 'Enabled' checkbox is checked. 'OK' and 'Cancel' buttons are at the bottom right.

3. ACTIONS

Enter message to be displayed.

PowerShell is the program that windows will use to display the message, as Task Scheduler cannot show messages by itself

4. CONDITIONS

The screenshot shows the 'Create Task' dialog box with the 'Conditions' tab selected. The dialog is titled 'Create Task' and has a close button (X) in the top right corner. The 'Conditions' tab is active, and the text below it reads: 'Specify the conditions that, along with the trigger, determine whether the task should run. The task will not run if any condition specified here is not true.'

The 'Conditions' tab contains several sections with checkboxes and dropdown menus:

- Idle**
 - ☐ Start the task only if the computer is idle for: 10 minutes (dropdown)
 - Wait for idle for: 1 hour (dropdown)
 - ☒ Stop if the computer ceases to be idle
 - ☐ Restart if the idle state resumes
- Power**
 - ☐ Start the task only if the computer is on AC power
 - ☒ Stop if the computer switches to battery power
 - ☐ Wake the computer to run this task
- Network**
 - ☐ Start only if the following network connection is available:
Any connection (dropdown)

At the bottom of the dialog are 'OK' and 'Cancel' buttons.

The screenshot shows the 'Create Task' dialog box with the 'Settings' tab selected. The dialog is titled 'Create Task' and has a close button (X) in the top right corner. The 'Settings' tab is active, and the text below it reads: 'Specify additional settings that affect the behavior of the task.'

The 'Settings' tab contains several sections with checkboxes and dropdown menus:

- ☒ Allow task to be run on demand
- ☒ Run task as soon as possible after a scheduled start is missed
- ☐ If the task fails, restart every: 1 minute (dropdown)
- Attempt to restart up to: 3 times
- ☒ Stop the task if it runs longer than: 3 days (dropdown)
- ☒ If the running task does not end when requested, force it to stop
- ☐ If the task is not scheduled to run again, delete it after: 30 days (dropdown)
- If the task is already running, then the following rule applies:
Do not start a new instance (dropdown)

At the bottom of the dialog are 'OK' and 'Cancel' buttons.

5. Testing
